International Journal of Fracture

CONTENTS OF VOLUME 74 (1995/96)

Vol. 74, No. 1, 1995

Foreword		v
Extensions of the pseudo tractions technique for friction in cracks, circular cavities and external boundaries; effect of the interactions on the homogenised stiffness	C. FOND and Y. BERTHAUD	1–28
Fractal effects of crack propagation on dynamic stress intensity factors and crack velocities	H. XIE and D.J. SANDERSON	29–42
On the fundamental energy argument of elastic fracture mechanics	R.F. KEATING and G.B. SINCLAIR	43–61
Interfacial stress sigularities in a bimaterial wedge	M.R.H. RUDGE and D.M. TIERNAN	63–75
Influence of crack depth and strength matching on deformation and plastic zone for welded joint specimen	W. TANG and Y.W. SHI	77–87
A 2-D five-noded finite element to model power singularity	M.M.A. WAHAB and G. DE ROECK	89–97

Vol. 74, No. 2, 1995

Indentation of a cantilever beam or plate	S. KADIOĞLU and O.S. YAHŞI	99–130
Numerical investigation of 3-D constraint effects on brittle fracture in SE(B) and C(T) specimens	M. NEVALAINEN and R.H. DODDS, Jr.	131–161
Evaluation of energy release rate for a planar crack in heterogeneous media	J.H. CHANG	163–179
Fracture mechanics of a shaft-loaded blister of thin flexible membrane on rigid substrate	K.-T. WAN and Y.-W. MAI	181–197

Vol. 74, No. 3, 1995

Thin plate bending of dissimilar half-planes with interface debonding emanating from an elliptical hole	M. SALAMA and N. HASEBE	199–218
A boundary element method for two-dimensional linear elastic fracture analysis	C.-C. CHANG and M.E. MEAR	219–251
Numerical simulations of dynamic interfacial crack growth allowing for crack growth away from the bond line	X.-P. XU and A. NEEDLEMAN	253–275
Interlaminar fracture analysis of composite DCB specimens	K. ARAKAWA and K. TAKAHASHI	377–287

Vol. 74, No. 4, 1996

Numerical simulations of dynamic crack growth along an interface	X.-P. XU and A. NEEDLEMAN	289–324
Mode I stress singularity and intensity factor at a crack tip terminating at a transversely isotropic-orthotropic bimaterial interface	J. WANG and B.L. KARIHALOO	325–340
Numerical thermo-elastic analysis of singularities in two dimensions	ZOHAR YOSIBASH	341–361
Fracture of knitted randomly oriented short-fiber composite	L. HOFFMANN, T.P. YU and S.S. WANG	363–381
Author index		383
Volume contents		385–386
